OUR PARTNERS

By Vincenzo has partnered with innovative European and Australian suppliers to bring the Australian market access to luxurious and revolutionary products.

DE CASTELLI 01

DE CASTELLI

De Castelli produces metal material finishes and surfaces. By Vincenzo is the sole distributor in Australia for De Castelli products. De Castelli infuses artisan ideas and workmanship into industrial processes, leading to entirely original results, in a collection of pieces that, despite being part of a series, remain unique.

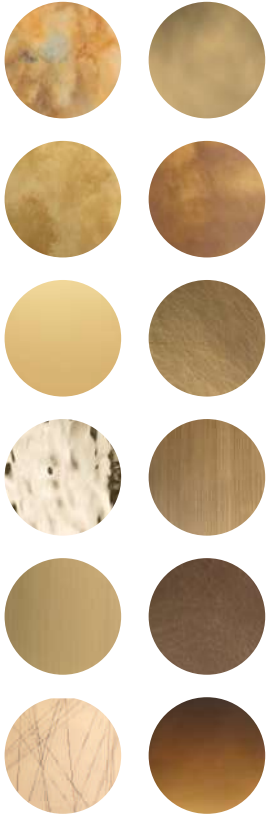

METALS, FINISHES & SURFACES

METALS & FINISHES

Brass

Copper

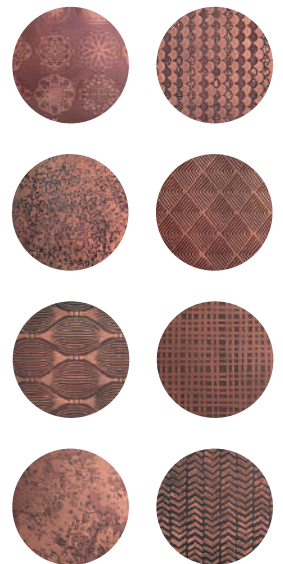

Stainless Steel

Brass De-erosion

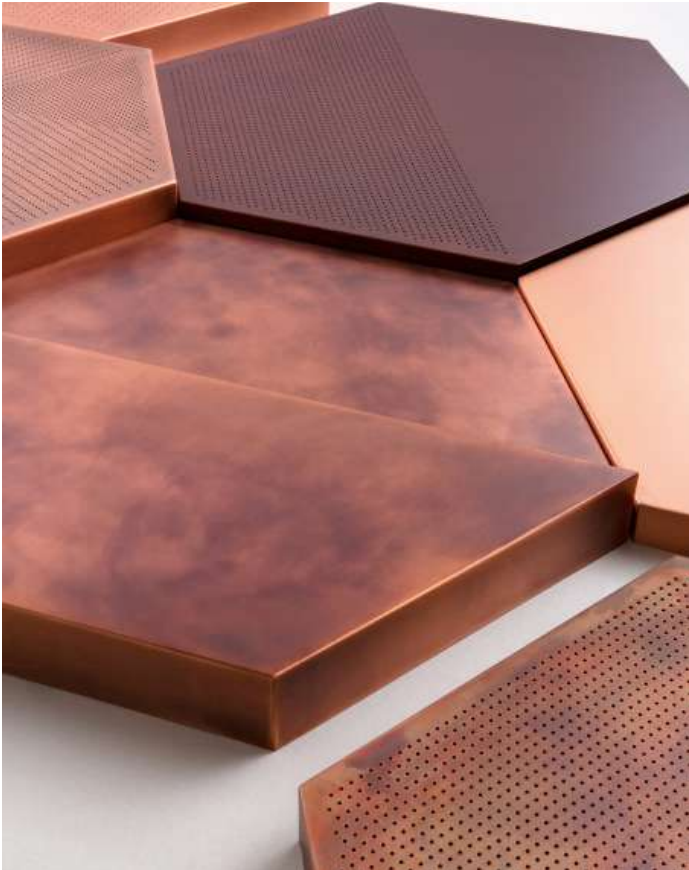

Copper Deerosion

Discover De Castelli's unparalleled metal finishes and patinas, exclusively available in Australia through By Vincenzo. Transform metals into captivating art with textures and colours ranging from raw to refined, including brass, copper, iron and stainless steel. Craft distinctive, timeless spaces with these exceptional materials.

SURFACES

Discover De Castelli's exceptional metal material surfaces, proudly offered as a partnering brand of By Vincenzo. Elevate your architectural projects with the fusion of innovation and craftsmanship, as De Castelli redefines the possibilities of metal, delivering textures that transcend conventional design.

BARAUSSE 02

BARAUSSE

Doors, boiserie and partitions for the separation of spaces Made in Italy. Barausse offers tailored solutions to create design projects in which aesthetics, well-being and functionality coexist in perfect balance. As the sole distributor of Barausse products in Australia, By Vincenzo brings exclusive solutions for the best European made and designed doors, right here to Australia.

Flush to wall

By Vincenzo brings “Made in Italy” to Australia. The Barausse solutions are all fully customizable and made to measure, are designed to interpret any environment with quality and a touch of modernity. Thanks to infinite customization possibilities, it is easy to find the ideal system for the separation of spaces in your own unique application.

PARTITIONS

MINIMAL & REFINED

Effortlessly tailor spaces with Barausse wall systems. Their adaptable designs seamlessly blend fixed and sliding elements. Ideal for private and public settings, this lightweight system transforms open spaces into comfortable environments with ease.

TECNO SPA 03

Designing furniture and partition walls for offices, public spaces and transit areas since 1953. By Vincenzo is a partner of Tecno Spa, distributing their Italian designed tables, storage solutions, chairs, partition walls and desks to Australia.

PARTITIONS, PUBLIC SEATING & WORKSPACES

PARTITIONS

DIVIDING SPACES

The minimal style sought from By Vincenzo's steel doors and windows is beautifully enhanced by Tecno's partitions. Using partitions in the division of space, Tecno has developed innovative solutions to meet the dynamic and flexible needs of the workplace.

Partition walls are highly customisable, they are designed to obtain superior structural and acoustic performances and can host panels in a wide range of finishes and materials.

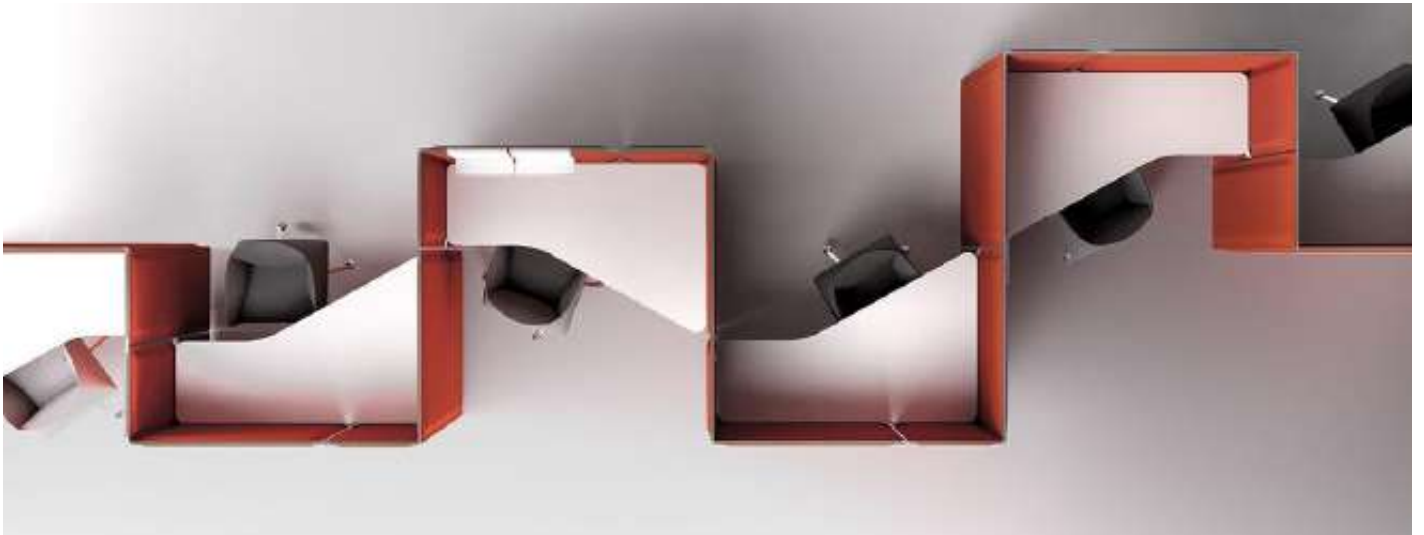

PUBLIC

SEATING & LOUNGES

Tecno excels globally in enhancing urban interchange areas like railway stations, airports, and tram routes. Their innovative product systems address aesthetics and technical aspects in response to evolving mobility trends.

WORKSPACES

WORK STATIONS & SEATING

Tecno is the leader in the production of interior architectures for workplaces and collective settings, and in the design and production of furniture for offices and high traffic areas. Tecno interconnects the office world with comfort and new lifestyles.

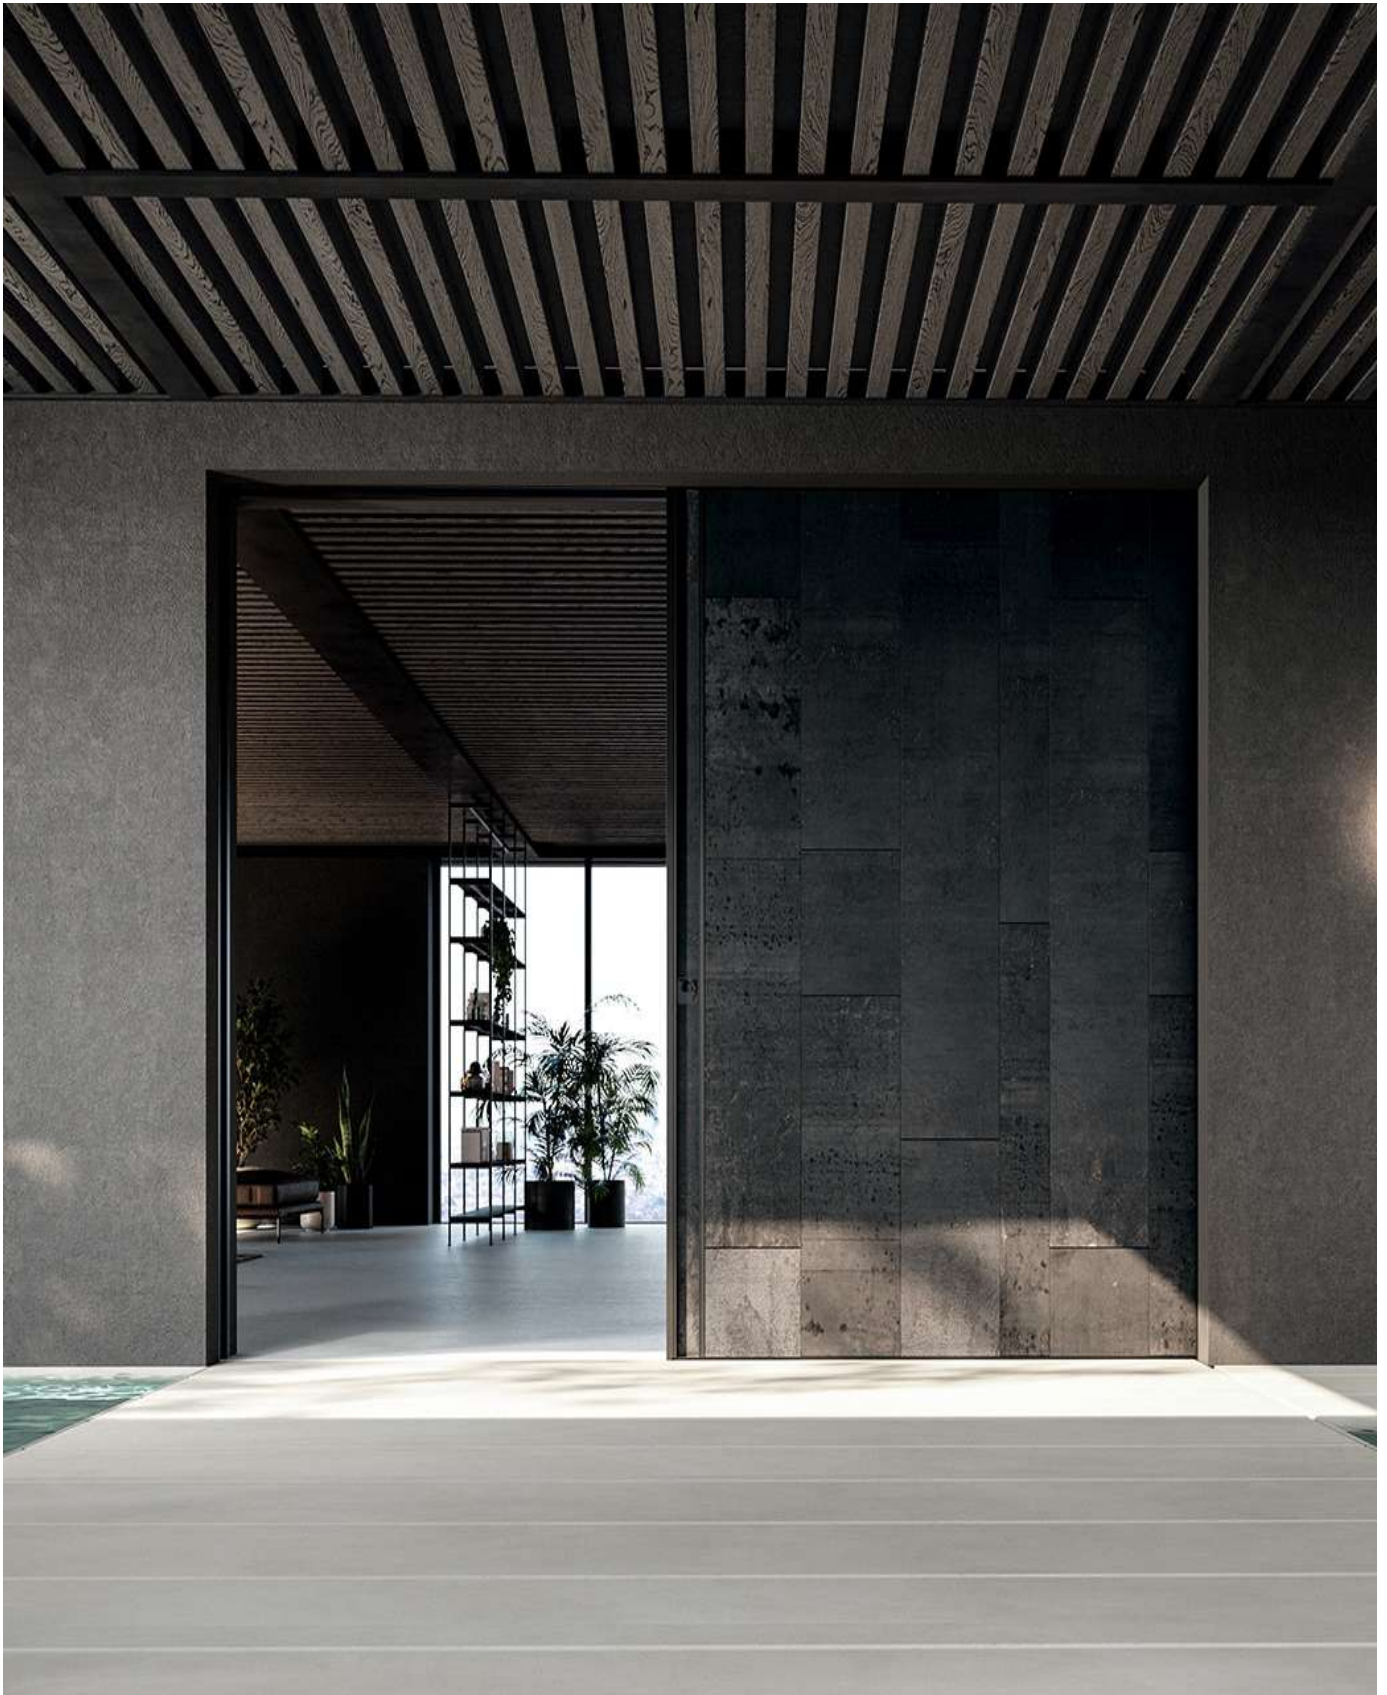

OIKOS DOORS 04

Oikos Venezia completely redefines the concept of the entryway. For over 30 years, they have set the global standard for luxury architectural safety doors, meticulously crafted at their Italian facility. We proudly partner with Oikos because they successfully marry the strength of a bank vault with the beauty of high-end Italian design.

ENTRANCE DOORS

Oikos believes security shouldn't limit imagination. They offer boundless customisation through premium materials, custom dimensions, and flush, coplanar installations that integrate flawlessly with both modern and historic designs.

Offering motorized locks, fingerprint access, and smartphone control for the ultimate modern convenience. Oikos doors are tested and certified for fire resistance, extreme weather, and acoustic soundproofing.
